

# Common Human Resource Information Standards

## Geographic Location

Geographic Location (GeoLoc) is an identifier of a designated worldwide geographic location, including water.

## Permitted Values

Reference Element: Worldwide Geographic Location Codes (GSA)

## Structural Business Rules

A DoD Military Service member must be associated with the Geographic Location (GeoLoc) derived from the Military Unit Identifier associated with a Member Permanent Military Unit Identifier or Member Temporary Military Unit Identifier.

A Military Unit Geographic Location must have only one associated Geographic Location.
